DETAILED ACTION

Response to Amendment

1 Applicant amendment overcomes §102(b) rejection of claims 11-13 and the rejection is withdrawn.

Applicant amendment overcomes objection to claims 9, 14, 17 and 20-26 and the objection is withdrawn.

Allowable Subject Matter

2 Claims 9, 11-14, 17, 20-26 and 28-30 are allowed.

Claims 28-30 were previously indicated allowable in office action mailed 4 May 2005.

Claims 9, 14, 17 and 20-26 were previously indicated allowable in office action mailed 24 August 2005.

The following is an examiner's statement of reasons for allowance:

Claim 11 recites, in part, "an interface circuit operable to connect each of the plurality of pairs of connection lines with the corresponding circuit block and disconnect the CPU from the corresponding circuit blocks when the microcomputer is in a test mode". This feature in combination with the remaining claimed structure avoids the prior art of record.

Claims 12 and 13 depend from claim 11.

It is these limitations, which are not found, taught or suggested in the prior art of record, and are recited in the claimed combination that makes these claims allowable over the prior art.

Art Unit: 2863

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
